INSOSPESO CEILING

Warranty

Use the enclosed assembly instructions for the installation of the lighting fixture. Non-compliance with the assembly instruction will automatically void the warranty.

The persons assigned with the installation of the product are instructed to handle it with the utmost care and safety in order to avoid damages to third parties.

The present light fixture has been tested and is fully operational.

Delivery contains 1 package

After opening the box, take out the ceiling plate, pull out inner part of the box, remove the light fixture and check if complete according to the partslist. Use for installation enclosed cloth gloves to prevent soiling of polished frame, screws and acrylic-ring.

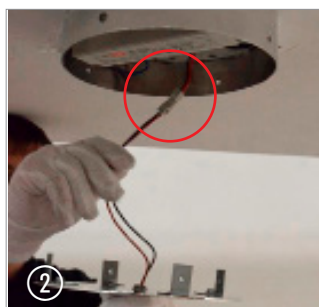

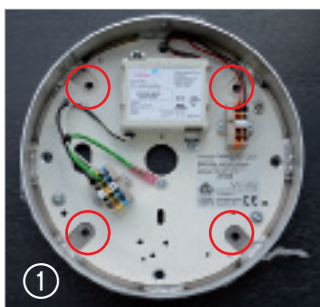

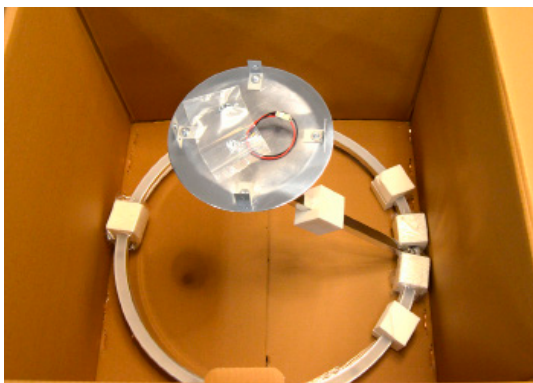

Mounting of the canopy

Make sure the ceiling has sufficient support capacity!

1. Mark the anchor positions for the base plate of the ceiling plate next to the supply line and drill using a 6mm / 1/4" drill, insert wall plugs.
2. Insert the supply line into the ceiling plate from the top, connect the power supply and the control signal to the terminal block of the ceiling plate ①

Connection of the light fixture

3. Connect the transformer supply cable to the light fixture cable with 2 connectors ②. Put the ceiling plate cover on the base plate ③ and fasten it.
4. Fix the lamp and canopy cover, fasten it with 4 screws from the side ④.
5. Check whether the light fixture is functioning.
6. Then remove the foil from the entire light fixture.

We will be glad to assist you with any further questions regarding the assembly of our light fixtures.
