**Our Philosophy**

- Reduction of detail
- Seamless architectural integration
- Logical, modular systems and families of products
- Ease of specification, installation and maintenance

## Brightness is in the eye of the beholder

Our perception of the 'brightness' of a space is primarily based on what we see at a glance as we scan around us. In architecture this is often walls and vertical surfaces, so, how well the walls are illuminated at approximately eye level is the key factor in our determination of how well a space is illuminated.

Within such a space, which surfaces and or planes should be revealed in order to support the architectural concept?

What opportunities are there to bring light to this surface?

Where should the light come from?

What should the properties of that light be (how much, how focused, what spread of light, at what angle should it fall onto the surface...)?

Whitegoods provides tools for the designer to address these questions and answer them with light, while the luminaires make the absolute minimum visual impact on the space.

## Perimeter

A perimeter lighting system is a significant design element in the space as it creates a focal point for interest or way-finding, defines a space and contributes general illumination.

The light source in a typical perimeter system will be flush to the ceiling, or slightly regressed and allow the finished wall to continue up past the ceiling plane. Characterized by a continuous, homogenous line of light – typically an opal or satin lens, light emanates from the intersection of the wall and the ceiling, or slightly above the ceiling, evenly illuminating the wall horizontally and gradually fading as the light travels down the wall. Reflected light from the wall will illuminate the space in front of the wall, and often be the only source of light required in the immediate area.

A well-designed perimeter lighting system will integrate cleanly into any ceiling type and place the light source in a location where it does not cause a glare nuisance or detract from the visual experience.

## 20 Linear Perimeter Flush and Regressed

## 20 Linear Perimeter Flush and Regressed

**Continuous line of light integrated into the ceiling with flush or regressed lens**

20 Linear Perimeter (20LP) is a perimeter pocket system that integrates seamlessly into any ceiling type with a flush or regressed mounted light source for continuous illumination of adjacent surfaces. The 20LP is available in any standard or custom length and inside or outside corners to fully integrate into any project.

It can be used for general illumination, or to illuminate and/or highlight specific surfaces, defining architectural elements, or aiding wayfinding through spaces.

Typically specified with a Satin Opal Diffuser to ensure a homogeneously illuminated lens, completely free from shadows or bright spots.

The regressed version can also accommodate satin or micro-prismatic lenses for higher efficiency, as well as narrow lens or louver.

For taller ceiling height applications or to control the degree of contrast on surfaces that are heavily textured, Whitegoods Linear Perimeter products offer the option for a *Soft Graze* (SG) bracket to provide additional offset from the illuminated surface as well as compensate for the extra wall thickness so that the light gets out in front of the vertical surface being illuminated.

# 20 Linear Perimeter Flush

A perimeter pocket system with flush mounted light source for continuous illumination of adjacent surfaces, available in any dimension to fully integrate with the architecture

Features

- Continuous, evenly illuminated snap-in lens without visible LED pattern.
- Continuous mounting to any desired length (within 1/4").
- Standard Opal Diffuser for even illumination and no LED appearance.
- Remote driver options.
- Field replaceable LED boards.
- 90+ CRI, 3 Steps MacAdam delivering excellent color rendering.
- Lengths and angles factory cut to exact field dimensions.
- Standard and custom corners.

# 20 Linear Perimeter Recessed Plaster Trim

A Plaster Trim perimeter pocket system with deep regressed light source for continuous illumination of adjacent surfaces, available in any dimension to fully integrate with the architecture, and with a selection of optical accessories

- Features

  - Continuous, evenly illuminated snap-in lens without visible LED pattern.
  - Continuous mounting to any desired length (within 1/4").
  - Standard Opal Diffuser for even illumination and no LED appearance.
  - Satin Diffuser for high efficiency and minimal LED appearance.
- Remote driver.
  - Field replaceable LED boards.
  - 90+ CRI, 3 Steps MacAdam delivering excellent color rendering.
  - Lengths and angles factory cut to exact field dimensions.
  - Standard and custom corners.
  - Versatile system offering multiple optical performance options.

# 20 Linear Perimeter Recessed Plaster Trim - Optical Accessories

The 20 Linear range offers the specifier a selection of optical accessories to suit various applications:

- Optional Satin Clear Diffuser with high output and efficiency.
- A Louver where shielding of the light source is critical.
- A Narrow Lens where tight control of the light output is required.

## 20 Linear Perimeter Recessed - Snap In Diffusers

## Product Information

Continuous, evenly illuminated snap-in lens without visible LED pattern

- Standard Opal Diffuser for even illumination and no LED appearance.
- Satin Clear Diffuser for high efficiency and minimal LED appearance.

## 20 Linear Perimeter Recessed - Louver

## Product Information

Glare control louver for complete shielding of light source

- Cross blade louver with integrated holographic film.
- Exact 45° cut-off.
- Available in 4.7" increments.
- End-to-end mounting gives uninterrupted lighting effect.
- Black or transparent frost finish.

## Details

Recessed Plaster Trim (RPT)

Recessed Bezel Trim (RBT)

Recessed Return Trim (RRT)

Recessed Grid Trim (RGT9/RGT15)

### Luminaire

- Continuous, evenly illuminated snap-in lens flush to the ceiling plane.
- Opal Diffuser for even illumination and no LED appearance.
- Field replaceable LED boards.
- 90+ CRI, 3 steps MacAdam.
- Lengths and angles factory cut to exact field dimensions specified to 0.25'.
- Standard and custom corners.
- Supplied with 4' class 2 plenum rated feed cable per fixture lengths.

### Soft Graze

- SG = Soft Graze, extends the luminaire an additional 0.5' from the wall to soften the effect.

### Fixation

- RPT = Recessed plaster trim
- RBT = Recessed bezel trim
- RRT = Recessed return trim
- RGT9 = Recessed grid trim 9/16
- RGT15 = Recessed grid trim 15/16

### Pattern<sup>1</sup>

- S = Straight run
- P = Standard patterns 2, 3 or 4 sided with 90 c orners on the same plane.

### Length

- A, B, C = specify inches to the nearest 0.25 (i.e. 72.25') For patterns specify each length (i.e. 2 sided: A x B = 72.25' x 48'; 3 sided: A x B x C; 4 sided: A x B x A x B)

### Power<sup>2</sup>

- L = 3W/ft low power (24V)
- M = 6W/ft mid power (24V)
- H = 10W/ft high power (24V)

### CRI/CCT<sup>3</sup>

- 90+ CRI (low/mid/high power)
- 927 = 2700K (169/338/591 lm/ft)
- 930 = 3000K (184/367/642 lm/ft)
- 935 = 3500K (218/43/763 lm/ft)
- 940 = 4000K (259/518/907 lm/ft)

### Driver (remote)<sup>4</sup>

- X = No driver, ordered separately
- S = Standard driver 120-277V
- D010 = Osram, 10%, 0-10V dimming, 120-277V
- L3DAE = Lutron Hi-lume 1% EcoSystem, 120-277V
- L3DOE = Lutron Hi-lume Premier 0.1% EcoSystem, 120-277V
- DFPN = Lutron Forward Phase 1%, 120VAC

### Lens

- OD = Satin opal diffuser

### Finish

- W = White, 15% gloss, RAL9010 (standard)
- B = Black, 15% gloss, Tiger Drylac 44/90053
- S = Silver, 15% gloss, Tiger Drylac 49/90500
- F = Custom finished trim, specify RAL

### Options

- BEC = Bezel end caps
- FEC = Flat end caps
- PEC = Plaster-in end caps

### Emergency

#### Emergency Remote Only

- Emergency LED battery backup available, order separately.

<sup>1</sup> See pattern spec sheet.

<sup>2</sup> Wattage shown does not include power supplies/drivers.

<sup>3</sup> Delivered lumens with satin opal diffuser shown.

<sup>4</sup> Remote power supply required. See power supply page for details.

## ProTools 60 Linear Perimeter

**Complete perimeter illumination system for all ceiling and wall types to deliver diffuse or accent lighting into the space**

The ProTools 60 Linear Perimeter (60PTLP) is a high-performance perimeter slot system that integrates into all ceiling styles to deliver a continuous, efficient, extremely well shielded and low brightness optical system. Light starts at the top of the wall and covers the entire wall, supplying reflected ambient light to the floor in front. Line of sight to the regressed optic is minimized and brightness is significantly reduced, rendering the wall as the focal point.

Of course, The 60PTLP is part of the larger family of ProTools 60 Linear products and utilizes the same proprietary LED boards as all other Whitegoods Linear, Cove and Perimeter products.

For taller ceiling height applications or to control the degree of contrast on surfaces that are heavily textured, Whitegoods Linear Perimeter products offer the option for a *Soft Graze* (SG) bracket to provide additional offset from the illuminated surface as well as compensate for the extra wall thickness so that the light gets out in front of the vertical surface being illuminated.

# ProTools 60 Linear Perimeter Recessed

- 2.4" aperture, integrated solution that is compatible with all ceiling types
- Standard and tailored run lengths, including corners
- Evenly illuminated perimeter lighting system
- Soft Graze option to vary light center from the wall
- Recessed optics minimizes brightness
- Consistent LED technology throughout the Whitegoods product range
- Easy to install housing allows the wall to continue above the finished ceiling
- Flexible design allows exact wall-to-wall dimensions
- Flicker-free full range dimming with standard driver (Eldoled)
- Manufactured in the USA

|                       |  |
|-----------------------|--|
| <b>Housing</b>        | Precision extruded aluminum for true dimensions and tolerances<br>Toolless component assembly from below<br>Perfect fit with inserts, louvers and lenses<br>Standard and tailored lengths including corner configurations<br>Soft Graze adds 1 - 3" additional set-off for less dramatic graze<br>Recessed snap-in cover for non-illuminated section<br>Finishes: white, silver and custom |
| <b>Integration</b>    | Fixation into gypsum, hard ceilings and all grid ceiling types<br>Finished wall continues past the ceiling line  |
| <b>Distribution</b>   | Evenly illuminated regressed, recessed lens or Soft Graze  |
| <b>LED</b>            | >90 CRI, 3-Step MacAdam, 2700-4000K static white<br>3W - 15W per foot, 180 Lumens/watt average*<br>RA 91-94 (2700-4000K)<br>Conformal coated for protection against humidity optional<br>L70 (TM21 Projected 85C) 72,000 hours<br>Tuneable white 2200-4000K, 180 lumens per watt average   |
| <b>Optic</b>          | Recessed micro-prismatic lens - diffusion with maximum efficiency<br>Recessed louver in white or black - extreme cut-off<br>Recessed elliptical optic - high efficiency graze<br>UGR average rating of 19  |
| <b>Reflect or</b>     | White: high efficiency (standard with RLW)<br>Black: no brightness (standard with RLB)<br>Silver: low brightness<br>All 15% gloss<br>Custom finish available   |
| <b>Driver</b>         | Compatible with quality constant current drivers   |
| <b>Connectivity</b>   | POE<br>Wireless  |
| <b>Weight</b>         | 4lbs per foot  |
| <b>Operating Temp</b> | Suitable for operation in maximum ambient temperature of 35C (95F)   |
| <b>Warranty</b>       | 5-year Limited (see complete company warranty information)   |
| <b>Certifications</b> | ETL and ETL-C for dry and damp location, CE, Chicago plenum  |
| <b>Voltages</b>       | 120-277VAC, 347VAC   |

\*nominal lumens

Recessed Louver (RLW, RLB)

Recessed Micro-prismatic Lens (RML)

Recessed Elliptical Optic (REO)

Soft Graze: 1 2 3 (SG1, SG2, SG3)

## Model

- WG-60PTLP = ProTools 60 Linear Perimeter Soft Graze 1 extension
- WG-60PTLPSG2 = ProTools 60 Linear Perimeter Soft Graze 2 extension
- WG-60PTLPSG3 = ProTools 60 Linear Perimeter Soft Graze 3 extension

## Fixation

- RPT = Recessed plaster trim
- RBT = Recessed trim for hard ceiling
- RG9 = Recessed trim for 9/16" grid
- RG15 = Recessed trim for 15/16" grid

## Pattern

- S = Straight run
- P = Standard patterns 2, 3 or 4 sided with 90° corners on the same plane<sup>1</sup>
- PZ = Non-standard patterns and/or corners other than 90° on multiple planes, consult factory<sup>1</sup>

## Length<sup>2</sup>

- 24 = 24
- 48 = 48
- 96 = 96
- XX = Specify inches to the nearest 0.25"

## CRI/CCT

- 90+ CRI
- 927 = 2700K
- 930 = 3000K
- 935 = 3500K
- 940 = 4000K
- TW = Tuneable white 2200-4000K

## Optic

- RML = Recessed micro-prismatic lens
- RLW = Recessed louver white (supplied with white reflectors standard)<sup>3</sup>
- RLB = Recessed louver black (supplied with black reflectors only)<sup>3</sup>
- REO = Recessed elliptical optic

## Beam

- 80 = 80 (RML)
- 35 = 35 (RLW, RLB)
- 50 = 50 (RLW, RLB)
- 20x40 = 20x40 (REO)

## Power<sup>4</sup>

Lens (RML)

- P1 = 3W/ft (330 lm/ft)
- P2 = 6W/ft (620 lm/ft)
- P3 = 10W/ft (950 lm/ft)
- P4 = 15W/ft (1400 lm/ft)

Tuneable White (RML)

- P2 = 6W/ft (299-307 lm/ft)
- P3 = 10W/ft (442-466 lm/ft)

Louver (RLW/RLB/RNO)

- P2 = 6W/ft (890/850/940 lm/ft)
- P3 = 10W/ft (1340/1280/1400 lm/ft)
- P4 = 15W/ft (1920/1835/2000 lm/ft)

## Driver<sup>5</sup>

- E1 = EldoLED 0.1% dimming, 0-10V (120-277V)
- L1 = Lutron 1% dimming, Ecosystem (120-277V)
- A3 = Advance 1% dimming, 0-10V (347V ONLY)
- PoE = Power over Ethernet
- BT = Wireless CAS fit/Casambi
- TQ = T-Series for Lutron Quantum 0.1% (120-277V) (Tunable white ONLY)
- DMX = EldoLED 0.1% dimming DMX (120-277V)

## Housing Finish<sup>6</sup>

- W = White, 15% gloss, Tiger Drylac 49/11350 (standard)
- S = Silver, 15% gloss, Tiger Drylac 49/90500
- F = Custom finished trim, specify RAL

## Reflector Finish<sup>7</sup>

- W = White, 15% gloss, Tiger Drylac 49/11350 (standard)
- B = Black, 15% gloss, Tiger Drylac 44/90053
- S = Silver, 15% gloss, Tiger Drylac 49/90500
- F = Custom finished trim, specify RAL

## Options

- CP = Chicago Plenum Rated
- EM = Emergency (remote)
- NYC = 6' whip per run
- TF = Top feed

Plaster trim (RPT)

Recessed trim (RBT)

9/16 grid (RG9)

15/16 grid (RG15)

Wall mount clip

Whitegoods reserves the right to change any information without prior notice.

## Notes

- 1 See pattern spec sheet.
- 2 Individual fixture lengths less than 2' may require remote driver.
- 3 Specify Lensed products to nearest 0.25". Specify Louvered and Tuneable White products in 12" increments for continuous light. Louver supplied in 12" increments, balance of the run will have recessed blank covers on ends.
- 4 Values are approximate delivered lumens for 3000K LEDs; refer to product data sheet for additional details. For RLB/RLW, delivered lumens with 50 degree beam.
- 5 See power supply page for details.
- 6 See Tiger Drylac color chart: inter-lux.com/tiger

## V Cove

**The perimeter lighting system that drives light down the wall from a completely hidden source**

The V(ertical) Cove illuminates the wall from above the ceiling plane, gradually tapering as light travels down the wall. Hiding the source from any viewing angle eliminates glare and renders the wall as a focal point, effectively extending the visual boundaries of the space. The wall becomes a secondary reflector and bounces light into the space to create a well illuminated, low contrast and very comfortable environment.

The Whitegoods proprietary LED technology, available in all Whitegoods linear and cove products, is available from 1.5watts/foot to 15 watts/foot. The delivered lumens range from 250 to 1000 lumens per foot. A tunable white version is available for color temperatures from 2200-4000K, in 90+ CRI.

- V Cove integrates with drywall, grid ceilings and other hard ceiling surfaces
- Continuous runs as well as inside and outside corners
- Designed to deliver high light levels to the wall from above the ceiling plane
- Knife edge cove for any ceiling type

whitegoods

V Cove

Continuous linear perimeter lighting system

- Light source positioned for optimum vertical spread of illumination.
- Light source is not visible from any viewing angle up to and including direct vertical view.
- Delivers continuous soft wash of directed light to adjacent surface.
- Satin Diffuser for high efficiency and soft edge beam without striations.
- Finished wall is illuminated from above the ceiling plane.
- Removable light source sub assembly for simple installation and maintenance.
- High efficiency linear LED in a range of outputs.
- Integral drivers and through wiring.
- Lengths and angles factory cut to exact field dimensions.
- Mitered corners available with continuous illumination.
- Made in the USA.

**Housing**

Precision extruded aluminum for true dimensions and tolerances  
Housing provided in any exact length  
Unitized gear tray with LED and driver for easy final installation  
In-fill top panel  
Corners: standard and non-standard  
Finishes: RAL 9010 white 15% gloss  
Wall mounting allows the finished wall to extend above the ceiling plane

**Integration**

Fixation into gypsum, hard ceilings and all grid ceiling types

**Distribution**

Asymmetric forward throw with max. beam at 125 degrees  
Redirected light for soft, even illumination of the ceiling and back wall  
Snap-on diffuser standard

**LED**

>90 CRI, 3-Step MacAdam, 2700-4000K white  
3W - 13W per foot, 120 Lumens/watt average<sup>4</sup>  
RA 91-94 (2700K - 4000K)  
Conformal coated for protection against humidity standard

**Driver**

Integral driver  
Compatible with quality constant voltage drivers

**Connectivity**

POE

**Weight**

3lbs per foot

**Operating Temp**

Suitable for operation in maximum ambient temperature of 35C (95F)

**Warranty**

5-year Limited (see complete company warranty information)

**Certiifications**

ETL and ETL-C for dry and damp location, CE

**Voltages**

120-277VAC, 347VAC

## 20 Mini Z Cove

### The most minimal perimeter wall wash system for drywall applications

The 20 Mini Z Cove (20MZC) is a perimeter slot luminaire which delivers light down the surface of the wall from a very minimal slot width.

The aluminum mounting profile is exceptionally shallow so this detail can be specified in ceilings with very minimal recess depths, or at the bottom of the wall to illuminate the floor.

The leading edge of the profile creates a super crisp finish to the detail and the ceiling, concealing the luminaire in the pocket above.

- Continuous runs of any length
- Housing can quick ship from stock
- Continuous line of light
- Easy plaster-in housing installation, snap-in fixture installation

whitegoods

inter•lux

20 Mini Z Cove

Compact and powerful continuous perimeter luminaire with plaster-in Plaster Trim knife edge detail for a perfect finish. Delivers light smoothly down the wall from a concealed position.

- Miniature continuous perimeter light with knife edge detail.
  - Flush snap-in Opal Diffuser (standard) for evenly illuminated lens.
  - Flush snap-in Satin Diffuser for maximum efficiency and spot free lens.
  - Easy plaster-in integration into walls and ceiling.
- Snap-in LED fixture for easy installation and maintenance
  - Continuous mounting to any desired length.
  - Lengths and angles factory cut to exact field dimensions or field cut.
  - Remote driver, low voltage wiring.
  - Made in the USA.

## Z Cove

### Concealed Vertical Illumination

Z Cove is a knife edge perimeter slot system for continuous illumination of vertical surfaces from a narrow and shallow pocket. A laminated micro-prismatic lens, specifically developed by Whitegoods for this luminaire, projects light down the wall delivering a smooth graduated effect.

The aluminum mounting profile can be supplied to any length mounted as a continuous run and is suitable for various ceiling types. The integral driver and LED are simple to install and maintain, both housed on the removable gear tray with through wiring.

The leading-edge of the aluminum profile creates a super crisp finish to the detail and the ceiling, concealing the luminaire in the pocket above.

- Two-piece construction allows the housing to quick ship
- Housing integrates with any ceiling type for a minimal knife-edge look
- Hidden source with a satin lens is perfect for hospital and school corridors
- From 250 – 1100 lumens per foot delivered, and tunable white

whitegoods

# Z Cove

A knife edge perimeter slot system for continuous illumination of vertical surfaces available in any dimension to fully integrate with the architecture

- Linear perimeter slot system featuring plaster-in precision knife edge for clean, minimal effect.
- No visibility of light source when viewed from directly below knife edge.
- Delivers continuous soft wash of light to adjacent surface.
- Integral drivers and through wiring.
- Continuous mounting to any desired length.
- Standard and custom corners.
- Continuous, evenly illuminated snap-in lens without visible LED pattern.
- Flush snap-in Opal Diffuser (standard) for evenly illuminated lens.
- Flush snap-in Satin Diffuser for maximum efficiency and spot free lens.
- Field replaceable LED boards.
- Made in the USA.

**Housing** Precision extruded aluminum for true dimensions and tolerances  
Housing provided in any exact length  
Unitized gear tray with LED and driver for easy final installation  
Standard and tailored lengths  
Corners: standard and non-standard  
Finishes: RAL 9010 white 15% gloss  
Optional clear dust cover

**Integration** Fixation into gypsum, hard ceilings and all grid ceiling types

**Distribution** Asymmetric lightwash distribution  
Redirected light for soft, even illumination of the top of the wall  
Satin optical diffuser for wide, diffuse and efficient light emission

**LED** >90 CRI, 3-Step MacAdam, 2700-4000K white  
3W - 13W per foot, 120 Lumens/watt average<sup>4</sup>  
RA 91-94 (2700K - 4000K)  
Conformal coated for protection against humidity standard

**Driver** Integral driver  
Compatible with quality constant voltage drivers

**Connectivity** POE

**Weight** 3lbs per foot

**Operating Temp** Suitable for operation in maximum ambient temperature of 35C (95F)

**Warranty** 5-year Limited (see complete company warranty information)

**Certifications** ETL and ETL-C for dry and damp location, CE

**Voltages** 120-277VAC, 347VAC

## 20 Mini Edgeless Cove

**The most minimal edgeless cove is the most versatile**

The 20 Mini Edgeless Cove (20MEC) is 1.5" high and only needs an additional 4" above for the most minimal knife edge cove. The housing ships separately from the fixture, can be easily screwed into a drywall cove and plastered-in for a truly integrated appearance. The 20 Linear fixture snaps into the housing and delivers a nearly 180° beam spread to evenly illuminate the entire cove and out into the space.

Use the 1.5W per foot constant current LED board for 300 lumens per foot delivered – more than a glow!

- MEC housing is available with the quick ship program
- The fixture easily snaps into the installed housing
- 90+ CRI LED source for even illumination in 300-1000 lumens per foot delivered

whitegoods

inter•lux

20 Mini Edgeless Cove

Compact but highly effective indirect cove system featuring a Plaster Trim precision knife edge for clean, minimal effect, fully concealing the light source

- Extremely small knife-edge cove utilizing the 20Linear for general indirect distribution.
- Continuous mounting to any desired length.
- Luminaire has opal or satin diffuser options for even illumination, elimination of glare and high efficiency.
- Lengths and angles factory cut to exact field dimensions - housing may be field cut.
- Standard and custom corners.
- Snap-in 20Linear fixture for ease of installation and maintenance.
- Remote driver.
- Made in the USA.

Model

- WG-20MEC = Mini Edgeless Cove

Fixation

- RPT = Recessed plaster trim

Pattern

- S = Straight run<sup>1</sup>
- PC = Standard patterns coffer 2, 3 or 4 sided with 90° corners<sup>2</sup>
- PR = Standard patterns raft 2, 3 or 4 sided with 90° corners<sup>2</sup>
- PZ = Non-standard patterns and/or corners other than 90°, consult factory<sup>2</sup>

Length

- A, B, C = specify inches to the nearest 0.25" (i.e. 72.25") For patterns specify each length (i.e. 2 sided: A x B = 72.25" x 48"; 3 sided: A x B x C; 4 sided: A x B x A x B)

Power<sup>3</sup>

- L = 3W/ft low power (24V)
- M = 6W/ft medium power (24V)
- H = 10W/ft high power (24V)

Color/Lumens<sup>4</sup>

- 90+ CRI minimum (Low/Mid/High)
- 927 = 2700K, (282/563/938 lm/ft)
- 930 = 3000K, (282/563/938 lm/ft)
- 935 = 3500K, (288/574/957 lm/ft)
- 940 = 4000K, (288/574/957 lm/ft)

Driver (remote)<sup>5</sup>

- X = No driver, ordered separately
- S = Standard driver 120-277V
- D010 = Osram, 10%, 0-10V dimming, 120-277V
- L3DAE = Lutron Hi-lume 1% EcoSystem, 120-277V
- L3DOE = Lutron Hi-lume Premier 0.1% EcoSystem, 120-277V
- DFPN = Lutron Forward Phase 1%, 120VAC

Lens

- SD = Satin clear diffuser (standard)

Finish

- W = White, 15% gloss, RAL9010 (standard)
- F = Custom finish, specify RAL

Options

- CDC = Clear dust cover

Emergency Remote Only

- Emergency LED battery backup available, order separately.

Whitegoods reserves the right to change any information without prior notice.

Notes

- Standard setup assumes the cove ends at a perpendicular wall and the LED board is setback from the end to minimize light on the perpendicular wall. Contact us for options.
- See pattern specsheet.
- Wattage shown does not include power supplies/drivers.
- Delivered lumens with satin clear diffuser shown.
- Remote drivers required. See power supply page for details..

Perimeter  
20 Mini Edgeless Cove

SATIN CLEAR DIFFUSER [SD]  
12" Opening / 12" Height

|   |         |            |                       |
|---|---------|------------|-----------------------|
| L | 3.2W/ft | 306 lm/ft  | 581 at 0° H / 180° V  |
| M | 6.4W/ft | 613 lm/ft  | 1218 at 0° H / 180° V |
| H | 9.6W/ft | 1073 lm/ft | 2043 at 0° H / 180° V |
