New Zealand-based **David Trubridge** is one of the world's preeminent designers and a recognised leader in environmentally responsible design. David's work is overwhelmingly inspired by the wonders of nature encountered in his home country of New Zealand. The thread that runs through his work is clear: he is deeply moved by nature, deeply respectful of the lessons we should learn from it and attentive to the aesthetics of the response that earlier societies have had in the face of it.

Countless influential international publications have featured Trubridge's iconic work, which ultimately launched the 'raw sophistication' design trend. In 2008, the French magazine *Express* listed him as one of the top 15 designers in the world.

"Bring nature indoors."
