# <u>/</u>

To prevent electrical shock disconnect electrical supply before installation or servicing. Never connect a live fixture!!! Contractor is responsible for adequately reinforcing walls and/or ceilings to support fixture weight. Provide blocking when necessary.

### Step 1 - Confirm Power Supply is Off!

a Unpack luminaire unit. Unit ships with trim, springs, and accessories (e.g. lenses, louvers, etc.) attached as specified. Remote drivers and housings are supplied by Inter-lux.

#### Step 2 - Installing Downlight

a) Cut 1-13/16" x 1-13/16" (46mm x 46mm) hole

**b** Bend Spring Clips upward and insert fixture into hole, rotating body such that bezel lays

#### **Removal:**

flat on ceiling.

Luminaire may be removed by gripping bezel with fingertips and pulling down. Springs will compress allowing for better hold to pull fixture out further.

**IMPORTANT:** Add a bit of slack to power cord such that there is enough for luminaire to be fully removed without tugging on remote driver.
