

IMPORTANT: Fixture(s) must be wired in series! Refer to driver wiring document

Luminaires must be installed by a qualified electrician. Check with local and national codes for proper installation.

To prevent electrical shock disconnect electrical supply before installation or servicing.

Never connect a live fixture!!!

Contractor is responsible for adequately reinforcing walls and/or ceilings to support fixture weight. Provide blocking when necessary.

Integral Driver

Step 1 Open the Box

Unpack luminaire unit.

Step 2 Ceiling Preparation

Mark location, cut opening, and mount J-Box. Pull power (and control) cable(s) inside. Mount Cross Bar using supplied screws.

Step 3 Electrical Connection

- From Fixture, feed cable through Mounting Plate, followed by Canopy.
- Inside J-Box, connect power (and control) wire(s) using suitable connectors.

Step 4 Mount Luminaire

- Secure Canopy and Mounting Plate to J-Box using supplied Mounting Screws.
- Slip Fixture Body over Rim of Mounting Plate. Secure by rotating clockwise. Lock into place with Set Screw. Energize!
