

**IMPORTANT:** Fixture(s) must be wired in series! Refer to driver wiring document

Luminaires must be installed by a qualified electrician. Check with local and national codes for proper installation.

To prevent electrical shock disconnect electrical supply before installation or servicing.

**Never connect a live fixture!!!**

Contractor is responsible for adequately reinforcing walls and/or ceilings to support fixture weight. Provide blocking when necessary.

Integral Driver

## Step 1

### **Open the Box**

Unpack luminaire unit.

## Step 2

### **Ceiling Preparation**

Mark location, cut opening, and mount J-Box. Pull power (and control) cable(s) inside.

## Step 3

### **Electrical Connection**

- a** From Fixture, feed cable through Mounting Plate, followed by Canopy.
- b** Inside J-Box, connect power (and control) wire(s) using suitable connectors.

## Step 4

### **Mount Luminaire**

- a** Secure Canopy and Mounting Plate to J-Box using Mounting Screws.
- b** Slip Fixture Body over Mounting Plate. Secure Luminaire with Set Screw. Energize!

## Included in Box
