tools for lighting

Lighting is about creating an environment that uses light as the main medium of expression. It means having one's work blend seamlessly with the architecture, often at the risk of not being seen. It's about giving definition to a space.

Inter-lux has curated a collection of lighting products that represents the best in design. Inter-lux is sensitive to the demands of the market. We know exactly how you need your product: on time, on budget, and all backed up with only the very best in pre and post order service.

**Inter-lux – tools for lighting**

# whitegoods

Whitegoods products hold true to our design principles:

- Reduction of detail
- Seamless architectural integration
- Logical, modular systems and families of products
- Ease of specification, installation and maintenance

whitegoods

## 20 Linear Perimeter Regressed and Wallgraze

- Most minimal form factor and widest range of performance options
- Compatible with all ceilings and walls
- Seamless integration allows minimal impact on the space, as well as the ability to bring the light source closest to the subject
- Minimizes glare, optimizes efficiency

whitegoods

## 20 Linear Perimeter Flush

A perimeter pocket system with flush mounted light source creating a continuous line of light, defining the perimeter of the space.

whitegoods

## 20 Linear Wash Light Recessed

Fully recessed Wash Light for even illumination of walls, ceilings and floors. Minimal aperture of 0.7" of continuous and even illumination without glare.

whitegoods

## ProTools+ 3" High Powered Downlights

- Part of a complete family of 3" aperture high output downlights.
- 3" round and square aperture recessed downlights, adjustables and wallwashers.
- Recessed plaster, bezel and wood trims.
- CRI 92+ standard.
- L70 (TM21 Projected 85°C) Static White 60,000 hours, Tunable White and Warm Dim 50,000 hours.
- ETL and ETL-C for dry and damp locations.
- Luminaire installed and maintained from below the ceiling.

## CEILING PROTECTION

EASY TO INSTALL CEILING PROTECTION SYSTEM ALLOWING REMOVAL OF INTERNAL SECTIONS WITHOUT DAMAGING SURFACES

## STRAIN RELIEF

INTEGRATED STRAIN RELIEF WITH IP RATED OPTION

## HEAT SINK

CUSTOM DIE-CAST ALUMINUM HEAT SINK FOR THERMAL MANAGEMENT

## LED

HIGH OUTPUT, HIGH CRI LED MONO CCT, WARM DIM, TUNABLE AND RGBW OPTIONS

## ANTI GLARE

TWIST AND LOCK ANTI GLARE SHIELD AND OPTIC HOLDER FOR LOW UGR INSTALLATIONS

## OPTICS

HIGH EFFICIENCY USER REPLACEABLE LENS WITH LGL TECHNOLOGY ENABLING INDUSTRY LEADING LUMINAIRE LOR

## SWIVEL AND TILT

REMOVABLE SECTION ALLOWING 30° TILT AND 360° SWIVEL (FIXED VERSION ALSO AVAILABLE)

## SNAP IN REFLECTOR

EASILY REMOVABLE ANTI GLARE REFLECTOR

Linea Light is a global leader in high-performance lighting solutions, offering a diverse range of architectural, decorative, and technical fixtures for residential, commercial, and outdoor applications. With a commitment to innovation, sustainability, and cutting-edge LED technology, Linea Light delivers high-efficiency lighting designed to enhance any space. Known for its Italian craftsmanship and advanced engineering, the brand seamlessly blends aesthetics with functionality, making it a trusted choice for architects and designers worldwide.

## Skin

- Flexible lighting solution for a wide range of applications
- Ideal for wall washing and illuminating curved surfaces (columns, curved walls)
- Available in Ceiling, Wall, and In-ground configurations
- Mounting options: Surface, Recessed, or Semi-Recessed
- Multiple beam spread options for precise lighting control
- Designed to enhance key features while blending seamlessly into the environment

## Skin Optics Surface / Recessed

Gold cells  
Black screen-printed glass  
Version with 5/3 cells  
Optics: Spot, Flood,  
Wide Flood

## Skin Optics Surface / Recessed

Black cells  
Black screen-printed glass  
Version with 5/3 cells  
Optics: Spot, Flood,  
Wide Flood

## Skin Optics Surface / Semi-Recessed

Opaline cells  
Sandblasted glass  
Version with 5/3 cells  
Optics: Spot, Flood,  
Wide Flood

## Skin Frosted Surface / Recessed

Opaline glass  
Optics: General

## Skin Wall Washer Surface / Recessed

Metallic cells  
Black screen-printed glass  
Optics: Asymmetric

## Buzzer

- Bollard lighting family designed for maximum visual comfort
- Provides soft, uniform, glare-free illumination
- Available in three diameters and four heights, also rectangular version
- 360° or 180° optics for flexible lighting distribution
- Ideal for lighting pathways and landscapes with precision and continuity
- Neutral finishes for seamless integration into outdoor environments
- Multiple color temperature options for design versatility

## Buzzer

Buzzer is presented in three neutral finishes, perfect for any outdoor setting: Grey, Black Grey and Dark Brown. Four color temperatures are available: 2200K, 2700K, 3000K and 4000K.

Small Ø2.8" (6.5W)  
Medium Ø4.7" (11W)  
Large Ø7.5" (21W)

6.5" x 3" x 41.3"H  
(SE 5.5W / QE 11.5W)

**inter•lux**

## **Flexible Lighting**

Inter-lux Flex Lights are a premium flexible linear lighting solution engineered to contour seamlessly to any shape or surface, delivering consistent, uniform illumination with a clean, polished aesthetic.

## Flexible Lighting

### Rubber

- Versatile family of flexible lighting fixtures for complex applications
- Suitable for both indoor and outdoor use
- 3D version provides diffused light with multi-directional bending
- Slim 2D Mini (0.2" wide) designed for sideways bending
- Unique 3D Optic option for advanced performance
- 3D Optic features dedicated optics every inch
- Enables full 360° bendability with high performance and design flexibility

# SATTLER

SATTLER pioneered the geometrically-shaped suspended luminaire that is so popular today. Providing functional illumination, as well as feature aesthetics in a space, SATTLER quality is unmatched in the industry. SATTLER has expanded their offering to add more organic shapes, including some with biophilic and acoustic qualities.

# STOANE LIGHTING

Stoane Lighting designs and manufactures the highest level of product. Utilizing quality materials, the latest appropriate technology and the most efficient design and engineering philosophy, Stoane Lighting products are produced in compliance with the most stringent environmental sensitivities.

Controlling all aspects of the process, Stoane Lighting can treat standard and custom luminaires in the same high-quality, environmentally-conscious manner, and with service life in mind.

If you are a lighting designer, do yourself a favor...

## STOANE LIGHTING

### G-Cat

G-CAT and Mini G-Cat are versatile, decorative yet functional, robust catenary lighting systems. Varied optical accessories provide general illumination or accent lighting in any outdoor space. The tensioned cable system mounts to any structure and carries the electrical supply to single or multiple luminaires.

Using Stoane Lighting's capability to introduce custom adaptations, sparkling spheres and shadow-casting shades can be applied for unique results.

Mini G-Cat

# STOANE LIGHTING

## Circular Economy

Sustainable lighting for the circular economy. Stoane Lighting products are designed to be easily disassembled, so internal components can be replaced, upgraded and eventually recycled.

**MODULAR** Common components across multiple products

**REPLACEABLE** Upgradeable optics, light sources and drivers

**REMANUFACTURABLE** Light sources and optics

**ECODESIGN** Meet Ecodesign energy efficiency and performance thresholds
